

JESSE
T A L L I S

PHOTOGRAPHY
CAPABILITIES & SERVICES

A woman with long dark hair, wearing a colorful, multi-strapped bikini top and a necklace, is sitting on a beach. She is looking down and to the left. The background is a soft, warm sunset over the ocean, with the sky transitioning from orange to a dark blue. The overall mood is serene and artistic.

JESSE TALLIS
PHOTOGRAPHER

Australian film photographer **JESSE TALLIS** lives for visual storytelling. A self-taught creative, Jesse found he had a natural creative eye for photography + design, and has intensely honed his craft in his 6 years in the industry.

Fascinated with all things vintage, his images are driven by **vivid colour** and captivating settings; while calculated propping and purposeful posing that **elicit feelings** in the viewer are hallmarks of his work.

Based out of **Melbourne**, but he will **travel** as far as the job requires to get the best out of a shoot (interstate & international inc.).

Still imagery, **video creation**, **graphic design** and everything in between, Jesse pours love + purpose into each of his professional and personal works.

HOW WE OPERATE
THE PROCESS

ONE.

Understanding client objectives & deliverables. We start by discussing the goals and purpose for the shoot or campaign. We then talk about how many looks, how many shots, other deliverables (video, reels etc.) & the time needed to achieve this.

TWO.

Collaborating on a brief.

We then work together on a brief which outlines everything from desired results, to timing & budget, to tone & personality of the campaign, and agreement of deliverables.

THREE.

Concept ideation.

Initial concept ideation and discussing the creative direction to best fulfil the project needs. Location options provided.

FOUR.

Developing the mood board.

Refining the concept and nailing down reference imagery and inspiration from various forms of media (music, art, cinema etc.). Establishing a posing guide and outlaying the necessary props.

FIVE.

Shoot and deliver.

We use the above steps as a map to guide the shoot. Editing and deliverance of the final project assets will be carried out within our predetermined timeline.
